Professional Development Workshops*

Hazardous Materials First Responder Awareness

Presented by Shaw Environmental

This course is designed for all personnel who respond to or have the potential to respond to a hazardous materials emergency. Topics include defining hazardous materials, recognizing and identifying the presence of hazardous materials in an emergency, potential outcomes when hazardous materials are involved, use of basic information resources, and individual roles in an emergency situation.

Sunday, February 12, 2006
9:00AM - 3:00PM

\$125/indv.

Urban Search and Rescue Performance Measure for Intelligent Systems

Presented by the National Institute of Standards and Technology

Urban Search and Rescue (US&R) is one of the most challenging and dangerous activities that responders have to undertake. The goals of this workshop are to (1) disseminate research in urban search and rescue intelligent systems of various types, (2) establish operational environment characteristics to guide development of technologies and performance measures, and (3) promote dialogue between technology developers and responders.

Sunday, February 12, 2006
9:30AM - 3:30PM

\$50/indv.

DOE Transportation Emergency Preparedness Program's Modular Emergency Response Radiological Transportation Training

Presented by the US Department of Energy

The DOE Transportation Emergency Preparedness Program's (TEPP) Modular Emergency Response Radiological Transportation Training (MERRTT) overviews fundamentals for responding to transportation incidents involving radioactive material. The course examines DOE radioactive materials shipments and DOE resources available to responders.

Wednesday, February 15, 2006
1:00PM - 4:30PM

\$50/indv.

MERRTT Train the Trainer

Presented by the US Department of Energy

The MERRTT Train-the-Trainer session is offered as a follow-up for conference participants who attended the Wednesday MERRTT workshop. This session adds modules such as; patient handling, incident control, survey instruments, rail transportation and transportation of safeguards material.

Thursday, February 16, 2006
9:00AM - 4:00PM

\$50/indv.

**For more information, please email Kent Welter at kbw@nrc.gov.
Registration Deadline: February 2, 2006**

*Conference registration is not required to attend workshops.
